**Treibball is a new way to play with your dog!**

It's a competitive sport for dogs of all ages and sizes; it promotes better teamwork and communication between a dog and their handler. It's low-cost and low impact on the dog and handler; great fun for any energetic dog who works well off-leash and needs a job, or any dog who loves to herd but doesn't have sheep!

Playing Treibball uses a combination of classic obedience and herding cues. The game consists of your dog working off-leash and obeying your cues.

Your dog uses their nose or shoulders to drive eight balls into a goal within 10 minutes. It takes thinking, communication and coordination of the team to get the driving done, and all those balls (sheep!) into the goal.

**All dogs can play!**

Every breed, mixed or not, can participate. The breeds with natural herding ability probably have a bit of an edge, but any dog who can learn to target, move off-leash both right and left, stand, stop and lie down, can do it successfully!
